DETAILED ACTION

Notice to Applicant

1. Claims 2, 4-11, 13-22, and 24-30 are pending. Claims 2, 4-11, 13-16, 18, 20-22, and 24-28 are amended. Claims 29 and 30 are new. Claims 1, 3, 12, and 23 have been cancelled.

Election/Restriction

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 2, 8, 10, 14, 16, 18, 22, 25, 26, 28, 29, and 30, drawn to a method and/or system for judging whether or not a user transmitting a request has access rights to obtain and store information, classified in class 707, subclass 9.

II. Claims 4-7, 9, 11, 13, 15, 17, 19, 21, and 24, drawn to a method and/or system for medical records management and transmission, classified in class 705, subclass 2.

III. Claims 20 and 27, drawn to a method and/or system for calculating and charging a usage charge, classified in class 705, subclass 40.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility as a system for determination and granting of access to data and files, and invention II has separate utility such as a computer implemented system adapted for a health care management or delivery organization. Invention III has separate utility such as a system for generating a bill, or transferring funds in response thereto. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
